SUMMARY

UI/UX Engineer with experience bridging the gap between high-fidelity design and functional front-end architecture. With the principles of User-Centered Design (UCD) and Atomic Design, specialized in building scalable design systems and responsive interfaces. A forward-thinking professional who integrates AI-driven workflows (AI-assisted coding) to accelerate research, brainstorming, and development. Proven track record of improving product usability and reducing development hand-off time through Component-Driven Development and clean, maintainable code.

SKILLS

Design & Prototyping

Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop, Wireframing, High-Fidelity Prototyping, Google Stitch.

Front-End Engineering

HTML5, CSS3/SCSS, JavaScript/jQuery (Basic), Tailwind CSS, Bootstrap, Component-Driven Development, Scalable Architecture, Design-to-Code (Pixel-Perfect Implementation).

Frameworks & Tools

React & Svelte (Basic), WordPress (Custom Elementor Layouts), VS Code, Cursor AI, GitHub, Notion, Project Management & Collaboration (Wrike/Trello/Taiga).

Methodologies

Design Thinking, User-Centered Design (UCD), Atomic Design, Agile/Scrum, Problem Solving, Responsive Web Design.

AI Augmentation

Workflow optimization using ChatGPT, Gemini, Claude, and Antigravity for rapid research and UI logic generation.

EXPERIENCE

Freelance, Remote – UI/UX Engineer & Product Designer

2018 – Present

- Architected and delivered end-to-end UI/UX solutions for diverse clients, resulting in a **25% average increase in user engagement** across platforms.
- Implemented **AI-driven research workflows**, cutting down initial discovery and brainstorming phases by **40%** without sacrificing user insight quality.
- Developed scalable design systems using **Atomic Design** in Figma, ensuring 100% brand consistency across web and mobile interfaces.

- Converted complex designs into pixel-perfect, SEO-friendly **HTML/CSS/Tailwind** code, reducing page load times by an average of **15%**.

PT Twindo Internasional , Bogor – *UI/UX Designer & UI Engineer*

2012 – 2018

- Led the redesign of core company products, simplifying user flows which led to a **30% reduction in customer support tickets** related to UI confusion.
- Bridged the gap between design and engineering by creating a shared **Component Library**, improving developer hand-off efficiency by **50%**.
- Mastered **responsive design techniques** to ensure seamless functionality across all device breakpoints.
- Collaborated closely with cross-functional teams to identify UX bottlenecks and implement rapid **fixes and bug** updates.

PT Nuantero Smart Media, Jakarta – *Web UI Designer*

2011 – 2012

- Designed **web interfaces and landing pages** aligned with branding and user experience best practices.
- Utilized **Adobe Creative Suite** to produce high-impact visual assets and layouts.
- Assisted in the transition from **static design hand-offs** to interactive prototypes to better communicate motion and logic to stakeholders.

PT Vibiz, Jakarta – *Web & Graphic Designer*

2010 – 2011

- Created compelling **graphic and web assets** for digital marketing campaigns.
- Supported website **UI updates** and ensured visual consistency across digital platforms.
- Contributed to early-stage **UI improvements** and brand consistency initiatives.

EDUCATION

Bachelor of Information Technology (S.Kom), Jakarta

Bina Nusantara University (BINUS)

2006 – 2011
