SUMMARY

Product Designer focused on turning user needs and business goals into clear, usable, and scalable digital experiences. Combines UX strategy, information architecture, interaction design, design systems, and front-end understanding to connect product decisions with practical implementation.

SKILLS

Product & UX

Product Thinking, User-Centered Design, Design Thinking, UX Strategy, User Journey Mapping, User Flow, Information Architecture, Heuristic Evaluation, Usability Testing.

Interaction & Interface

Figma, Wireframing, High-Fidelity Prototyping, Responsive Design, Interaction Design, Visual Design.

Design Systems

Atomic Design, Design Tokens, Component Libraries, Component-Driven Development, UI Foundations, Design Consistency.

Collaboration

Stakeholder Communication, Developer Collaboration, UX Problem Solving, Prioritization, Design-to-Development Handoff.

Front-End Understanding

HTML5, CSS3, SCSS/SASS, JavaScript/jQuery (Basic), Tailwind CSS, Bootstrap, React (Basic), Svelte (Basic).

PROFESSIONAL EXPERIENCE

Freelance — *UI/UX Engineer & Product Designer* | 2024 - Present

- Review new product designs against established design systems, patterns, and the broader product experience.
- Guide design handoff and evaluate implemented interfaces for usability, consistency, and alignment with the existing product ecosystem.
- Collaborate with designers and developers to resolve inconsistencies and maintain a coherent product experience.

Remote — *UI/UX Engineer & Product Designer* | 2018 - 2023

- Designed and improved SaaS product experiences by translating business requirements and user needs into practical product solutions.
- Evaluated user flows and information structures to identify usability issues, reduce friction, and simplify complex product experiences.
- Designed and evolved a scalable design system using Atomic Design principles while balancing consistency, usability, and technical feasibility with developers.

SELECTED PRODUCT EXPERIENCE

Fleet Management & Mining Operations System — *2025*

- Designed operational dashboards focused on information clarity, workflow efficiency, and operational decision-making.
- Structured complex vehicle and fleet information into clear information hierarchies and task-oriented views.

Connective Network – SaaS Community Platform — *2022*

- Led UX and UI design across multiple SaaS product areas, translating user needs and business requirements into practical experiences.
- Evaluated user flows and information structures to simplify complex experiences and improve usability

Automotive E-Commerce Platform — *2022*

- Improving information architecture, product discovery, and purchasing journeys.
- Simplified navigation and product presentation to help users find relevant products and understand key information more efficiently.

EdTech Mobile App (Japanese Language E-Learning) — *2021*

- Designed learning journeys, user flows, and mobile experiences for a Japanese language e-learning product.
- Developed reusable interaction patterns to support a consistent learning experience.

Fintech & POS Mobile Application — *2019*

- Designed transactional and operational journeys for digital credit/top-up and Point-of-Sale workflows.
- Translated key tasks into clear mobile interaction flows and usable interfaces.

ADDITIONAL EXPERIENCE

Bappeda Bogor — *Outsourced Web Designer* | 2014 - 2015

- Redesigned the website and provided ongoing design maintenance, including design-related bug fixing.

PT Twindo Internasional , Bogor — *UI/UX Designer & UI Engineer* | 2012 - 2018

- Designed and improved web products and page-builder experiences based on user needs, business requirements, and platform constraints.
- Identified UX bottlenecks and worked with developers to determine practical solutions balancing user experience and implementation feasibility.

PT Nuantero Smart Media, Jakarta — *Web UI Designer* | 2011 - 2012

- Designed web interfaces and visual layouts for digital products and client requirements.

PT Vibiz, Jakarta — *Web & Graphic Designer* | 2010 - 2011

- Created web and graphic design assets for digital content and online experiences.

EDUCATION

Bachelor of Information Technology (S.Kom), Jakarta

Bina Nusantara University (BINUS) - 2006 - 2011
